**1. All individuals reviewing this application are required under 35 USC 181 to sign and date this form regardless of whether they are making a secrecy order recommendation.**

- 2. The attached copy of the application, any copies made therefrom and this form must be returned to the PTO once a recommendation not to impose secrecy has been made or a secrecy order has been rescinded.**

Pursuant to 35 U.S.C. 184, the subject matter of this application may be filed in a foreign country for the purpose of filing a patent application without a license any time after the expiration of 6 months from filing date unless the application becomes the subject of a secrecy order.

The USPTO publishes patent applications at 15 months from the earliest effective filing date. The USPTO will delay the publication of an issued patent until exactly the 18 month anniversary of the "discovery" of the invention, and until no earlier than 6 months from the filing date or 30 days from the date of referral to the agency. This publication will be delayed for publication 6 months from the filing date or 30 days from the above "Date of Referral" (whichever is later), unless the change is provided to the USPTO regarding the issuance recommendation or a change in status of the invention.
